

Join Capy and Klei on an isolated tropical island where the environment creates its own weather. Will you be able to survive for long against the elements? Can you defeat a herd of deadly one-horned saber-toothed tigers? The whole world is different, and so is every creature. The new single-player game, Don't Starve: Shipwrecked, will challenge your survival skills through new biomes and new gameplay options. Description Klei Entertainment has teamed up with the developers behind Don't Starve and Superbrothers: Sword and Sworcery (the original indie Game of the Year) to bring their worlds together in a new, single-player-only expansion, Don't Starve: Shipwrecked! In the game, after a terrible battle with an angry god, Wilson finds himself stranded in a tropical archipelago. All around him is destruction, but the tropical breeze lulls him into a false sense of security. He can't be sure where the land ends and the clouds begin. The world itself might be different, but it is still equal parts unforgiving and uncompromising. Wilson must use all of his survival skills to navigate these islands, finding new resources along the way. The game draws upon the weapons and atmosphere of both Don't Starve and Sword and Sworcery to create a new world for players to explore. All the best games from both worlds are combined to create new biomes, seasons, and gameplay. New playable characters are introduced, each with their own set of perks and quirks that draw from both games. Players will have to explore new biomes filled with new resources, and run for their lives from new creatures and biomes as they search for clues to help them survive the harsh island. Each world has its own terrifying new enemies, weather, and biomes to challenge Wilson's survival skills. With a new dark soundtrack to complement the new environments, this is a game all about survival.Q: Object assignment in JavaScript I have an issue with object assignment in JavaScript. A, B and C all are objects. Their properties are assigned in the following manner A = { prop1 : 1, prop2 : 2 }; B = A; C = { prop1 : 3, prop2 : 4 }; At this point if I do C === A in the console, I get true.

le of São Tiago da Goro Castle of São Tiago da Goro () is located on the top of Pico da Corte Natural (Natural Peak of Corte Real) of the Pico da Goro range, in the municipality of Sorriso in the Portuguese autonomous community of the Azores. History As the native sagres maintained from 1254 to 1257, the Castro has been subject to destruction since then. Another colonial destruction happened in 1470, during the reign of King Afonso V of Portugal. The occupation of the castle led to the loss of valuable historical and archaeological data. The fragmentary description of the castle was referred by João de Barros in his Description of the coasts of Africa and Asia (1512), quoting the work of Diogo de Teive. In contrast to the regime of Salvador Imbélis, it was not under the directions of the king, but under the control of the musters of the ordinaries, at the request of Peter of Saint Mary, who seized the territory of Tires during the period known as the Fidalga War. This region was divided, between a group of vassals of the Order of Santiago between 1505 and 1521, by Imbélis. Historic remains show the existence of an earlier castle, possibly in existence during the years of Afonso III, who died in 1348. The authorities allowed the castles and city to decline. Due to its ruins, the castle received under-lighting during the second half of the 19th century, and in the middle of the 20th century, it was again restored and included in the traditions of the Technical School of Ponta Delgada, where it was taken as a core subject during the 1960s, with the participation of students, teachers, students and scholars of the Portuguese Geologists Association in 1975 and a visit of the architect Raul Martins on 14 October 1986. In the 1970s the Municipal Council of São Tiago da Goro commissioned the architect Raul Martins to design a public building inside the castle, an ambitious project that received the title of Promotora de Paço (Research for Castle). The project was developed and assumed the current location, in which it now contains the Fachada dos Arquivos, the Biblioteca Geral (General Library), the Centro de Arquivos (Archives) and the Descans

Holidays with friends For a few days prior to Christmas I have been so busy with work and other things that I haven't done a lot for the family unit. Then Christmas day came and we got home and I realised that there was nothing to celebrate apart from tucking into the Christmas dinner. Nice memories! So for next Christmas, I want to take the two families to somewhere special. What's it like? It's a stone circle on the edge of a marsh. It's a pretty sight that's only visible from the sky up above. It reminds me of one of those 70's love triangles where the two lovers end up in a nice, romantic place. It's kinda like that. Unfortunately, we missed seeing it at the most ideal time of the day. Full moon and the like. Where is it? It's near Tynney Hall, a visitor centre and farm in the centre of the country. Well, that's assuming you are in a train carriage. If you're getting an SATC vibe that the journey won't be totally like on the show, I would recommend to search for other things to do nearby or do it on a weekend if you want a family day out. It's also 7 miles away from Reading, so it's not too far of a walk. How to get there? Find the Milton Keynes Information Centre and get off the train there. Otherwise you'd have to catch the train and get off at Green Park which is another station from Reading. The circular train line which ran from the East to the West of London, stops at an area called Green Park too. I think it's important to know that when you get to Green Park station you have to get off and go into the Uxbridge side. So when they're still building the buildings, get off at Green Park station and walk past the Simpson's and continue towards the Thames. A big dilemma! I'm torn between having a Britpop themed evening out in March and going up to the
