An indie, puzzle-adventure game centered on friendship. Link, a loner who has been isolated from the world since the tragic death of his mother, meets a mysterious girl named Yellow in a cinema. They soon become best friends, and soon Link finds himself sucked into a world of discovery. As he unravels the mystery behind his existence, he will have to overcome many obstacles and make new friends in a quest to learn more about himself. Key Features: A Story About Discovery You can experience the story of Doki Doki Literature Club in three ways: through a visual novel, character-specific chapters, and bonus side-stories (one for Yellow, one for Gold, and one for Blue). This content can be added to your Steam library under "local files" and you will be able to access and hear the music that's included. Q: Why isn't this DLC included in the base game?A: Doki Doki Literature Club! is a spiritual successor to another game by Vlambeer called Ridiculous Fishing. We have a lot of respect for the original game and we couldn't see ourselves reusing music from it without any explanation or theme. Each of the 24 OSTs is playable on its own, and all of them together are playable as one continuous song. The Fan Pack is divided into 5 themes. The first three themes are available to all users of the Fan Pack, while the latter two themes are available to only the most active or vocal members of our community. The Fan Pack is designed for players to use in one of 3 different ways. The first is for users who would like to listen to a variety of songs in a one-song-per-day fashion. The second way is for fans who have a favorite song and would like to listen to that particular song on repeat, without ever having to skip to another song. Finally, the third way is for users who have several favorite songs that they would like to listen to all day long. The characters of Doki Doki Literature Club are represented by 24 cards. The cards depict the different elements of the characters. These elements include body, appearance, gender, and soul. The Doki Doki Literature Club Fan Pack contains 24 (plus a bonus theme) custom-made

sprites for each element that the cards depict. Each card also has its own custom theme. The theme is made by combining the elements of the card, then painting a background and drawing the sprite using a high-quality graphic engine. We believe that the themes of the Fan Pack appeal to all of our fans. The "Obtain User License" feature is for users who are only interested in the music from the Fan Pack. It allows for the user to select a single song in the Fan Pack (the User Song) and download it at any time (with no restrictions). This feature is also perfect for those who would like to listen to all of the songs in a single-song-per-day fashion.
