however, you can download any missing waves files by clicking the "installer" icon (in the lower left corner) - it will take you to the uc browser site to download additional waves files. waves complete 10.0 win the crack win download is self-contained. however, you can download any missing waves files by clicking the "installer" icon (in the lower left corner) - it will take you to the uc browser site to download additional waves files. i completely agree - this is so annoying! if you buy a plugin - you should be able to upgrade for free every time in a future proof way! you pay for a product - you want to use it you dont expect it to stop working just because theres an updated version being released unless theres a major overhaul of functionality and a boot load of additional features and improvements!! i mean - when apple bring out a new iphone - you dont expect your old one to suddenly stop working just because a new updated version / model has been released! this is poor from waves and a real reason to look elsewhere for

your plugins! waves has rolled out a new feature which will make your life easier - presets are now saved when you audition them in waves. now, you'll be able to audition presets, apply them to any instrument or effect, and save them to your project. no need to audition presets one by one. just audition presets on the fly, and save them to your project.
