Lightroom 5's new feature is called Offline Mode, and it enables you to work only on your files without the need to be online. This applies only to your local files, however, and not to those stored on a Lightroom Pro server or any of the Adobe cloud. Offline mode requires a fairly hefty amount of RAM, recommend 2 GB for Lightroom 5. It is the only region of the program I want to isolate data. When I tried it (in my 2016 MacBook Air), Lightroom 5 chugged a little, and it took a minute or two for the program to open. But I was able to work. There are other reasons to do this, but the Offline Mode is the major one, and I don't need to do it.

Lightroom's new collection view meets a dreary landscape. This is the Mac App Store, and developers won't be happy to see what's coming. The collection is best in small collections, like albums, which you've probably learned to organize already.

Lightroom's Hot Swatch palette now offers you the ability to add and remove colors from a large collection of different swatches you have previously used. You can also drag and drop colors into a new palette, and switch between the old and new ones with an easily accessed button. This is a long way to connect colors, but more functionality always comes with new software.

Inside, the new filters are called "Adjustment Marks," and they're simple white marks to help you out with some basic editing. This is smart, because filters are more useful in ways they don't have room for in terms of their limited size.

Another interesting element within Photoshop is the Playback window that pops up and always has content within. You can use this tool to view or play back a photo, video, or animation. If you click into the playback window and hit the Kanji button, you can choose from whatever language you would like to use on the page.

According to Adobe you can use Photoshop for 2-10 users and for some of you, this may seem strange. However, with Adobe's growing community of designers and teachers, as well as the features available in the program, it is a good option to try out.
